PREFACE

Origin of Enrollments is a delineation of student enrollments for the Fall Semester 1971 from the forty-three accredited Kentucky colleges and universities. The enrollments are aggregated by institution, state, foreign country, and Kentucky resident students by county of origin. These figures are total enrollment by headcount and are reconciled with the Council publication, Kentucky College and University Enrollments 1971.

The Kentucky state-supported and independent institutions of higher education enrolled 97,984 students for the Fall Semester 1971. This was an increase of 5,702 students over 1970. Additional information about Kentucky high school graduates and the percentage of the 1971 graduating classes attending college can be found in Holding Power and Graduates published by the Division of Research, Kentucky Department of Education. A few general findings related to the overall enrollment characteristics of the state-supported sector of higher education and the independent sector follow:

1. The total enrollment of Kentucky colleges and universities increased 6.1 percent for the Fall Semester 1971 for a new high of 97,984 students.

   The state-supported college and university sector experienced a 9.3 percent increase in students for the Fall Semester 1971, with an enrollment of 80,304 students.

   The independent college and university sector experienced a 6.5 percent decrease in enrollment for the Fall Semester 1971, enrolling 17,680 students.

2. 80,583 Kentuckians enrolled in the accredited colleges and universities of the Commonwealth for the Fall Semester 1971. This represents an 8 percent increase in the number of Kentucky students over the Fall Semester 1970.

   The state-supported college and university sector enrolled 68,972 Kentuckians. This represents a 10.8 percent increase over Fall Semester 1970.

The independent college and university sector enrolled 11,611 Kentuckians, and is a 6.4 percent decrease from the Fall Semester 1970.

3. First-time freshmen enrolled in Kentucky olleges and universities increased to 22,687 for he Fall Semester 1971 representing a 7 percent ncrease over 1970.

First-time freshman enrollment in the state-supported college and university sector was 18,084, representing a 13 percent increase over 1970.

First-time freshman enrollment in the independent college and university sector was 4,603, representing a 11 percent decrease from 1970.

4. 18,682 Kentuckians enrolled as first-time reshmen for the Fall Semester 1971.

Of this number 15,891 enrolled in the state-supported sector of higher education, representing a 12.9 percent increase over the 1970 first-time freshman enrollment.

2,791 Kentuckians enrolled as first-time freshmen in the independent college and university sector, representing a 13 percent decrease from 1970 first-time freshman enrollment.

5. Kentucky colleges and universities enrolled 17,401 out-of-state students for the Fall semester 1971. This figure is equal to 17.8 percent of the total enrollment of 97,984 students in Kentucky colleges and universities and is less than the number enrolled in 1970.

Out-of-state student enrollment in the state-supported colleges and universities was equal to 14.2 percent of their total enrollment for the Fall Semester 1971.

Out-of-state student enrollment in the independent college and university sector is equal to approximately 34.4 percent of their total enrollment for the Fall Semester 1971.

6. Kentucky high schools graduated 42,964 students in 1971. The number of Kentuckians enrolled as first-time freshmen in Kentucky colleges and universities for the Fall Semester 1971 were equal to 43.4 percent of the 1971 Kentucky high school graduates.

7. The number of Kentuckians enrolled in Kentucky colleges and universities has increased

rom 65,181 in 1967 to 80,583 in 1971, representing 23.6 percent increase over the five-year period.

8. In 1969 the Council on Public Higher Education adopted a policy to limit the out-of-state student enrollment in the state system to 15 percent of the undergraduate enrollment by the Fall semester 1973. The policy also indicated that a state institution should not exceed 20 percent out-of-state students in their undergraduate enrollment. The Fall Semester 1971 enrollment for the state system indicates 12.9 percent of the undergraduates are out-of-state students. Additional information about institution enrollments may be found in Kentucky College and University Enrollments 1971.

The data utilized in this report relating to high school graduates was obtained from the Kentucky Department of Education publication, Holding Power and Graduates. The Kentucky college and university enrollment data utilized in this report was submitted by the institutions.
